## CANTILEVER SHELVING SYSTEM

**FREESTYLE** by  
**SPG**

ITEM # \_\_\_\_\_ MODEL # \_\_\_\_\_ QTY: \_\_\_\_

PROJECT: \_\_\_\_\_

OPTIONS:  YES \_\_\_\_\_  NO \_\_\_\_\_

### Standard Features & Benefits

- ◆ Freestanding cantilevered shelving system, no front uprights offers greater accessibility
- ◆ Increases sq.ft. and cubic volume storage capacity in existing footprint
- ◆ Adjustable shelves on 2" increments for maximum flexibility — no tools required for adjustment
- ◆ Unit is fully expandable side-to-side (Add-On Unit) using common uprights with dual-side adjustment
- ◆ Durable heavy-duty steel construction
- ◆ Shelving available in 5 widths and 8 lengths
- ◆ Uprights available in 5 heights
- ◆ Shelves, uprights, and frame kits have a durable gray epoxy-based finish with advanced antimicrobial protective agent
- ◆ Complete assortment of accessories including hanger rails and shelf covers in wire and stainless steel
- ◆ Each shelf has a load-bearing capacity of 600 lbs. with a unit rating of 1,800 lbs. for cantilevered shelves and 1,000 lbs. capacity on the bottom shelf — for a total unit capacity of 2,800 lbs.

## SPECIFICATIONS

### Freestyle Starter Station

- ◆ A place for everything and everything in it's place — the ergonomic design maximizes usable kitchen space and provides added storage for packaging, smallwares, menus, ingredients, utensils and more.
- ◆ Built for performance and durability — with an impressive total load-bearing capacity of 2,800 lbs.
- ◆ Adapts quickly and easily to accommodate steamers, microwaves, refrigeration units and other standard equipment for fast menu changes
- ◆ Fast, easy cleaning of all surfaces.

## FREESTYLE REINFORCEMENT BRACE

### The New Freestyle™ Brace

*A Simple Design That Creates Extraordinary Strength.*

*The new Freestyle™ Brace significantly increases load capacities — making it the ideal solution for heavyweight products both on the sales floor or in the back room.*

An engineering feat doesn't have to be complicated or costly to make a dramatic impact on performance and functionality. In fact, what is most impressive about the best engineering solutions is how simply and elegantly they create value. That is certainly the case with the new patent pending brace SPG developed for Freestyle™ shelving.

When you take a look at the brace, it certainly doesn't seem to be an amazing piece of engineering — it's only after you become aware of the added performance it provides that you begin to appreciate its ingenuity. Already recognized as the industry's most innovative and versatile shelving, Freestyle strength is significantly increased by this simple device. In fact, the new Freestyle brace increases load capacities by:

- ◆ 25% on 30-in. shelves — from 600 lbs. to 800 lbs.
- ◆ 40% on 24-in. shelves — to 1,000 lbs.

That results in an increase in overall unit weight capacity of up to 30% — and provides the additional strength critical for the storage and display of heavy, high-density products.

Just as importantly, the new brace achieves this additional weight capacity without sacrificing any shelf space whatsoever — and its low profile design and placement make it virtually invisible.

- ◆ The brace fits all Freestyle shelf depths and lengths
- ◆ Installation is fast, easy and requires no tools
- ◆ It doesn't interfere with the repositioning of shelving — Freestyle retains its convenience and all of its display and storage adaptability
- ◆ The brace significantly increases the weight and capacity of your shelving

The new brace is available now as a retrofit for existing units, or as an option on new Freestyle shelving — contact your SPG sales rep to order.

# Freestyle™ Modular

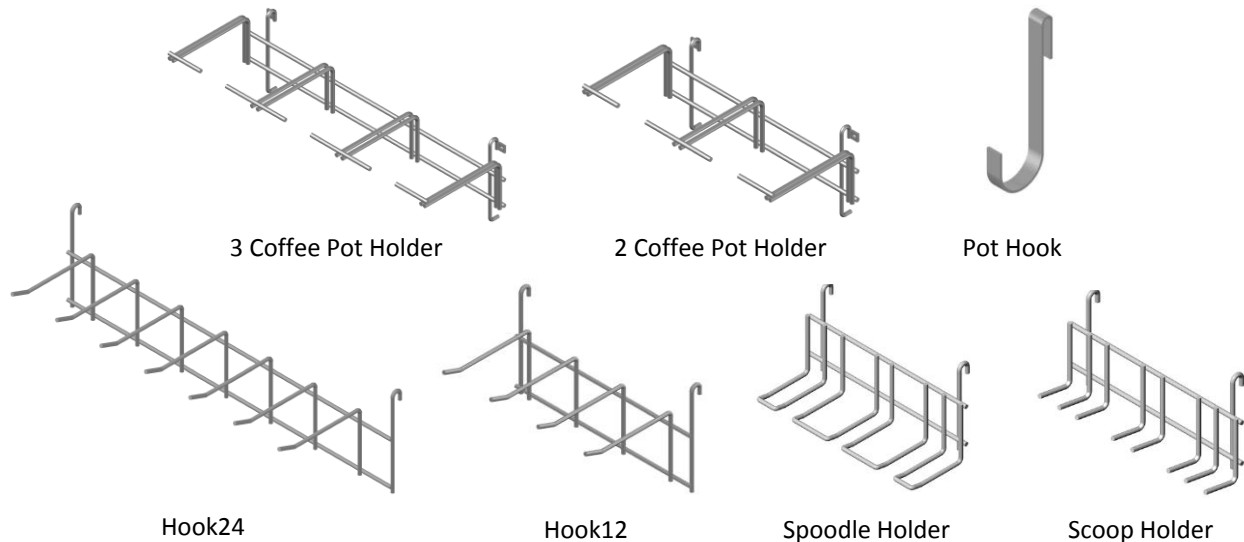

## SPECIFICATIONS

Freestanding modular cantilevered shelving system with adjustable shelves. Fully expandable side-to-side using common uprights with dual-side adjustment. Durable heavy-duty steel construction and NSF certified.

Shelves cantilever off modular frame consisting of main rear upright column and modular leg kit, integrated with bracing kit for total unit support and stability. One-piece cantilever shelves with 2" increment adjustability are insertable starting at floor-to-shelf surface height of 15". Stationary bottom shelf installs at 9" above floor or may be removed for open base applications.

Shelf constructed from 11 gauge reinforced brackets welded to 16 gauge tubular runners. Uprights are tubular construction consisting of 16 gauge front leg and 11 gauge horizontal upright extension with safety strap, bolted to 11 gauge column with adjustment pins. Shelves, uprights and frame kit have rust-resistant powder-coated finish with advanced antimicrobial protective agent.

Shelves available in 5 widths (14", 18", 21", 24", 30") and 8 lengths (18", 24", 30", 36", 42", 48", 54", 60"). Uprights available in 5 heights (34", 54", 62", 74", 86"). A complete assortment of available accessories for complete customization — including hanger rails, and shelf covers (powder-coated wire and solid stainless steel material).
