PRODUCE PROCESSING CART

KELMAX by
SPG

ITEM # _____ MODEL # _____ QTY: ___

PROJECT: _____

OPTIONS: YES _____ NO _____

Standard Features & Benefits

- ◆ U-boat design allows cart to be maneuvered with less radius than traditional 4 wheel cart, allowing for tighter corners (700lb capacity on bottom shelf)
- ◆ Aluminum Diamond deck upper shelf, easily removable for cleaning (600lb capacity)
- ◆ Full height handle gives multiple places to push/pull for employees of all heights
- ◆ Wire baskets provide a place for small items, spray bottles, clipboards, gloves, paper towels, etc.
- ◆ Lower fold out box shelf allows for a place for trash while processing produce (50lb capacity)
- ◆ Upper fold out shelf provides a work area for processing produce (100lb capacity)
- ◆ Both 24x48 shelves provide over double the surface area of a standard 1660 U-boat; more space equals less trips to the backroom
- ◆ Foot brake located under full height handle keeps the cart in place while working from it
- ◆ Modular design means worn parts can be replaced without replacing entire cart
- ◆ Smooth powder coated surfaces make it easy to wipe cart down
- ◆ Requires no hardware to be installed during assembly, everything just drops in place
